## ABOUT THE EVENT

Through the event, attendees will discover and learn more about how Microsoft Azure, Microsoft 365, Microsoft Teams, Power Platform, Microsoft Viva, and Microsoft SharePoint can help their business. Please join us in July 2023 to be part of this great event!

As a valued IT company, you have the opportunity to be one of the few and privileged partners that will support such a great event. The event will be mainly in English and Croatian language - for Croatian attendees - structured in at least 3 parallel tracks made of at least 6 breakout sessions each, with a total number of at least 15-20 technical sessions, plus an initial keynote/welcome session and an optional final closing session.

The target audience is made of IT pros, developers, business decision-makers, and software engineers interested in Microsoft technologies, coming mainly from Croatia, but also from neighbouring countries (like Austria, Slovenia, Bosnia and Herzegovina, Serbia, etc.). Sessions will be delivered by a team of locally and/or internationally well-known and experienced speakers (Microsoft Certified Masters – MCM, Regional Directors, and Microsoft Most Valuable Professionals – MVP). We expect about 150 attendees.

Speakers, staff, and organizers at CollabDays do this at their own expense and do not get paid either.

Information about the event, including location, speakers, sessions, and schedule, will be available on the official website <https://www.collabdays.org/2023-zagreb/>
